EXPERIENCE DESIGN LEADER

Unifying fragmented digital estates while preserving business unit identity.

- Consolidated 62 websites across 43 state agencies into one front door
- Unified 30+ subsidiary brand sites under one architecture
- Transformed a 2M-item parts catalog into a new digital storefront

The work runs from strategy through the details of the interface: information architecture (IA), service design, design direction, and the facilitation that gets organizations to agree on a structure no one can force them to adopt. Still designing hands-on.

EXPERIENCE

Publicis Sapient

April 2014 - September 2026

Crown Partners acquired by Razorfish, subsequently Publicis Sapient

Associate Creative Director, Experience June 2017 - September 2026

Led experience strategy and design for enterprise clients, leading designers and cross-discipline teams of up to 10.

Commonwealth of Pennsylvania (PA.gov) | Public sector | Digital estate consolidation

UX lead for the Shapiro administration's digital consolidation of 62 websites across 43 agencies into one resident-facing experience; led the design team from research through delivery.

- Owned UX architecture, core sitemap, and design plan; set the content strategy, replacing folder-based organization with tagging to power search filters, including by life event
- Facilitated IA workshops with each agency, restructuring sites around how residents find and read content; secured adoption without mandate authority
- Launched in phases, completing January 2025; ~9M visits and 72M page views in December 2024; Level Access accessibility score from 37% to 95%

Grupo Coppel, Digital Center of Excellence | Retail | Design organization advisory

Founding member of the Digital Center of Excellence, created to bring a 35-person design organization's work up to the standard of leading tech companies; 14-month engagement.

- Ran a skills-gap assessment and rewrote most of the design organization's job descriptions around quality and mentoring; the new criteria were used to hire senior managers, with a seat on the interview panel
- Identified that no one owned the end-to-end journey across six delivery pods; validated with product and engineering, then proposed an operating model of channel teams co-led by product and design, with mobile standards and a measurement framework
- Led the workshop that produced Coppel's design principles, credited in its design system; evaluated promotions; the client offered a direct role

ABC Supply | Building-materials distribution | AI-assisted product design

Led 1-3 designers on an AI-assisted home exterior visualizer, designing the end-to-end flow from project setup and visualization through homeowner approval to ordering. Used contractor research and Figma Make prototypes to make the case for generative-AI rendering; the prototypes cut sprint review cycles by 1-2 days.

Additional engagements: Nuveen, Home Depot, JCPenney, Kate Spade, GameStop, Ford Motor Company, Polaris, Discount Tire

UX Lead April 2014 - June 2017

Hubbell Incorporated | Industrial manufacturing | Multi-brand consolidation

Led 2-3 designers unifying 30+ subsidiary brand sites under a shared component set and taxonomy; facilitated workshops with 30+ stakeholders to establish unified categorization.

Aviall, a Boeing Company | Aerospace distribution | Commerce architecture

UX lead on the SAP Hybris implementation transitioning parts distribution to direct online commerce. Owned IA, wireframes, and prototypes for a 2M+ item catalog through launch.

MUFG Union Bank (now U.S. Bank) | Financial services | Consumer banking

Led two designers within a six-person UX and visual design team on account onboarding for PurePoint Financial and exploratory overdraft-protection concepts.

Additional engagements: United Technologies, Amway, Intel

Amplifi Commerce

April 2010 - April 2014

UX Lead & Experience Architect

UX strategy and design for retail commerce: eCommerce maturity, cross-channel journeys, IA, and interaction models. Express, Michael Kors, Movado, Rooms To Go, Big 5 Sporting Goods.

Earlier Experience

- Nokia, User Experience Specialist, Design: UX architecture for Ovi Services, including international privacy-compliance patterns
- Handango, Creative Director & Senior UX Design Lead: first employee; built a five-person design team and led UX for a mobile marketplace reaching 1.2M+ monthly visitors

CAPABILITIES

Leadership: team building (roles, hiring, promotion), craft leadership, facilitation, org and operating-model design, mentorship and coaching

Design practice: IA, journey and service design, research partnership, heuristic evaluation (32 clients, 12 industries), prototyping, accessibility (WCAG)

Product: product strategy, discovery and validation, UX metrics and KPIs

Tools & AI: Figma, Figma Make, Axure, Claude Code, Gemini, Copilot (testable prototypes, documentation and analysis)

EDUCATION

University of Texas at Arlington | University of Phoenix
